PROMPT (SAME FOR BOTH IMAGES)
“A woman’s hand holding a white ceramic mug printed with the words “GOOD MORNING”, three oranges on a wooden table beside it, soft morning light from a window.”
GPT Image 2 · 2 generations, same prompt · 6 Oct 2026 · A 1370×1148 · B 1312×1199 · all images generated by me

Image A

23 / 25 Image B **PREFERRED · TIE-BREAK**

23 / 25

RUBRIC

CRITERION	A	B
Prompt match	4	4
Rendered text	5	5
Anatomy & structure	5	5
Visual quality	4	4
Artifacts	5	5
Total	23	23

Scale: 1 = fails · 3 = acceptable · 5 = excellent. Checked: both read “GOOD MORNING” exactly, 3 oranges, 1 handle, thumb + 4 fingers.

FLAGS (NUMBERED ON THE IMAGES)

1	A	Mug reads cream in the warm light, not clearly white
2	A	Heart and two short lines added under the words
3-4	A	Unrequested houseplant and towel
5	A	Strong diagonal table shadow (both images)
6	B	Floral sprigs printed on the mug
7-8	B	Steam and green leaves not requested
9	B	Window background washed-out (low confidence)

VERDICT: IMAGE B, BY TIE-BREAK

The scores tie at 23/25. Both images show three oranges, exact “GOOD MORNING” text, a natural hand grip and the same strong table shadow, and both add unrequested items (A: plant, towel, heart; B: floral sprigs, steam, leaves, plant, blanket), so Prompt match is 4 for both. The tie-break is literal prompt adherence on colour: the prompt asks for a white mug, and B’s reads clearly white while A’s reads cream. Confidence is moderate, because mug colour is partly a lighting effect.
